IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Inventor: Castillo et al. Examiner:
Serial No.: 09/938,275 Group Art Unit: 1645
Filing Date: 08/22/2001 Attorney Docket No.: PROTEO.P03
Title of Invention: Therapeutic Applications of Laminin and Laminin-Derived Protein
Fragments

Seattle, Washington 98109
February 15, 2002

COMMISSIONER FOR PATENTS
Washington, D.C. 20231

**TRANSMITTAL & STATEMENT ACCOMPANYING SEQUENCE LISTING
IN COMPUTER READABLE FORM**

Applicants submit herewith a PC formatted floppy disk containing the previously filed Sequence Listing in computer readable form (CFR) and corresponding 38 pages of replacement Sequence Listing sheets for the above referenced Patent Application, now revised as required in the Notice dated 11/16/2001 (copy enclosed). Applicants note that revision of the Sequence Listing has resulted in a greater number of Sequence Listing sheets than the number of sheets originally filed, thus resulting in a change from 106 total sheets of specification as originally filed to 113 total sheets of specification. (Including claims, the entire application now totals 116 sheets.)

The content of the sequence listing information recorded in computer readable form is identical to the written sequence listing and includes no new matter.

Applicants believe that they have responded fully to all of the concerns expressed in the Notice. If the Examiner has any further concerns, Applicants requests a call to Applicants' attorney Patrick Dwyer at (206) 343-7074.

CERTIFICATE OF MAILING (37 CFR 1.8a)

I hereby certify that this paper (along with any paper referred to as being attached or enclosed) is being deposited with the United States Postal Service on the date shown below with sufficient postage as first class mail in an envelope addressed to the Commissioner of Patents and Trademarks, Washington, D. C. 20231.

February 15, 2002
